Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-3 are rejected under 35 U.S.C. 102(e) as being anticipated by Liu et al. [US 6,567,273].

Regarding claim 1, Liu et al. disclose a portable USB storage device (figures 1-3), comprising:

- a case (124, 126, figure 3) containing therein a data storage;
- a USB port (102) capable of being inserted into the case in a sliding motion (figures 1-2); and
- a control device (104) for selectively controlling a location of the USB port (figures 2-3).

Regarding claim 2, Liu et al. disclose the mode of the USB port being converted into a using mode or a carrying mode by control of the control device (figures 1-3).

Regarding claim 3, Liu et al. further disclose the case having a guideway (an edge of a slot 108) at one end thereof so that the USB port can be transferred in a sliding motion (figures 1-3).

Allowable Subject Matter

3. Claims 4-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The following is a statement of reasons for the indication of allowable subject matter: The cited reference in combination with the prior art fail to teach or suggest the USB device having a control device, wherein the control device has a control switch including both end portions turning around lever as a central axis in a seesaw motion and one end portion of the both end portions contacts a stopper to stop the motion of the USB port through one of two holes of the USB device casing.

Response to Arguments

5. Applicant's arguments with respect to claims 1-7 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- Aldous et al. [US 5,816,832] disclose media connector interface for use with a PCMCIA architecture communication card;

Art Unit: 2841

- Kunz et al. [US 6,542,358] disclose retractable platform with wireless electrical interface; and
- Sward [US 6,439,900] discloses a sliding connector interface with non-metallic contacts.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung S. Bui whose telephone number is (571) 272-2102. The examiner can normally be reached on Monday-Friday 8:30AM-6:00PM.
